Finlay Donovan is killing it...except, she's really not. A stressed-out single mom of two and struggling novelist, Finlay's life is in chaos: The new book she promised her literary agent isn't written; her ex-husband fired the nanny without telling her; and this morning she had to send her four-year-old to school with hair duct-taped to her head after an incident with scissors.

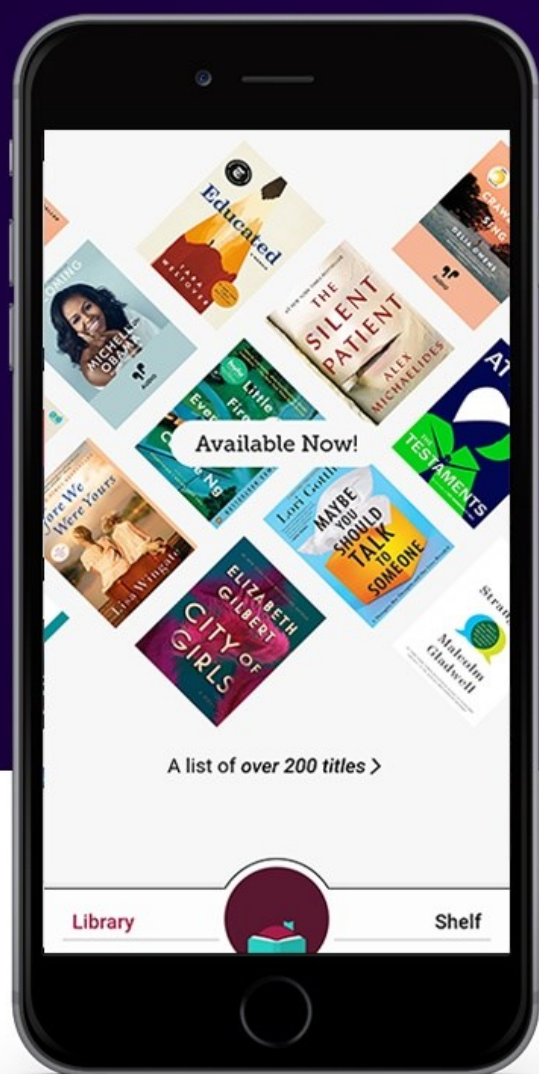

When Finlay is overheard discussing the plot of her new suspense novel with her agent over lunch, she's mistaken for a contract killer and inadvertently accepts an offer to dispose of a problem husband in order to make ends meet. She soon discovers that crime in real life is a lot more difficult than its fictional counterpart, as she becomes tangled in a real-life murder investigation.

Fast-paced, deliciously witty, and wholeheartedly authentic in depicting the frustrations and triumphs of motherhood in all its messiness, hilarity, and heartfelt moments, *Finlay Donovan Is Killing It* is the first in a brilliant new series from award-winning Elle Cosimano.
